

WOENSDAG 20 JUNI 2018
VAN DER VALK HOTEL | LEIDEN

UITNODIGING MEET THE PROF REUMATOLOGIE

Prof. Dr. Paul Hasler, hoofd van de afdeling Reumatologie en president van de onderzoeksraad van het Kantonsspital in Aarau (Zwitserland) deelt zijn expert opinion over de belangrijkste veranderingen in de behandeling van artritis psoriatica van nu én de nabije toekomst. Wat betekent dit voor úw praktijk en wat betekent dit voor de zorg voor uw patiënten? Dit doet hij aan de hand van een inleidende lezing waarna hij de theorie samen met u toepast aan de hand van patiëntcasuïstieken.

DIT MAG U NIET MISSEN! WE ZIEN U GRAAG OP **WOENSDAG 20 JUNI 2018 TE LEIDEN**

PROGRAMMA*

- 
- 19.00 - 19.10 Introduction and welcome by Prof. Dr. Paul Hasler
 - 19.10 - 20.00 **You've got options, the changing paradigm of PsA treatment, an overview of current and future options**
Prof. Dr. Paul Hasler - Physician-in-chief, Department of Rheumatology, Kantonsspital Aarau, Aarau, Switzerland
The landscape of PsA treatment has changed the last years and will continue to change the coming years. Biologicals, biosimilars and new oral therapies have and will become available. Promising times for HCPs treating PsA and patients living with this chronic disease which has a huge impact on their quality of life. Prof. Hasler will share an overview of current and future options of all therapies available for PsA and discuss how these therapies could be applied to have the most impact on patients' lives.
